Bilateral Meetings

- November 4, 2015 (10:30 a.m. - 3:00 p.m.)

Description

Avala Resources Ltd. is a Canadian-based company focused on the acquisition, exploration, and development of mineral properties in the Republic of Serbia. Avala Resources holds a dominant land position of over 950 km² including: the Timok Gold Project and the Tulare Copper-Gold Porphyry Project.

The company's objectives are to discover and develop quality gold and copper deposits in Serbia, in the following ways:

1. By continuing exploration near to the Timok Gold Project in order to add to the existing resource base.
2. By creating partnerships that will advance and generate success at our regional projects across the country.
3. By building on existing assets including licenses, experienced staff and extensive exploration datasets.
