Bilateral Meetings

- November 4, 2015 (10:30 a.m. - 3:00 p.m.)

Description

Terragold&co Ltd is one of the most successful and perspective companies in the area of project management, mine designing and consulting services in Serbian mining sector.

We are established on January 2007 and till now we acquired a considerable reputation in Serbian mining industry.

Terragold&co Ltd has extensive experience in open pit mining methods, evaluation, designing, development and management of mining projects. Our capabilities include technical evaluation, preliminary mining studies, full feasibility studies and mine optimization studies.

Our specialty is "green field" projects in geology and mining.

We achieved great results in project management in mining.
